SMILE INC

By JERI CHUA

In 1997, Dr Ernest Rex Tan and Mrs Grace Chong-Tan founded Smile Inc Dental Surgeons with a view to changing the way dentistry is perceived. The power couple have gone from strength to strength, and now boast four high-profile locations in Singapore. Theirs is dentistry at a designer level, with unique non-surgical in-house procedures that can transform a smile from just one visit. With innovative techniques, state-of-the-art facilities and an unwavering vision of oral artistry, they have succeeded in putting a perfect smile on many a face. www.smileinc.com.sg

The dental practice was the first to provide Laser Teeth Whitening, and now their services include aesthetic implants and the trademarked Smile Inc Makeover.
